
ACF Medalist Lecture

AML-1

Friedrich E. Kruse, Germany

ACF Lecture (Asia)

AL-1

Kohji Nishida, Japan

Plenary Lecture 1

Chair: Shigeru Kinoshita, Japan

PL1 Perspectives learnt in the diagnosis and management of fungal keratitis
Venkatesh N. Prajna, India

Plenary Lecture 2

Chair: Kohji Nishida, Japan

PL2 Fuchs Dystrophy: Past, Present and Future
Kathryn Colby, United States

Plenary Lecture 3

PL3 Past, Present, and Future of Anterior Segment OCT
Naoyuki Maeda, Japan

Symposium 1 Endothelial Keratoplasty/ Endothelium (I)

Chair: Yuichi Hori, Japan
Friedrich E. Kruse, Germany
Francis W. Price, Jr., United States

- S1-0** Special lecture: Future Modalities of Treatment on Corneal Endothelial Dysfunction
Shigeru Kinoshita, Japan
- S1-1** Intraoperative OCT assisted endothelial Keratoplasty
Francis W. Price, Jr., United States
- S1-2** DMEK: Learn How to Learn
Vikas Mittal, India
- S1-3** Change of Corneal Thickness after Corneal Endothelial Transplantation (DSaEK)
Choun-Ki Joo, Korea
- S1-4** Long term outcomes of endothelial keratoplasty: 15 year DSEK and 10 year DMEK
Marianne O. Price, United States
- S1-5** New Graft Insertion Device for DSAEK
Takeshi Soma, Japan
- S1-6** Yamane Triple: Endothelial Keratoplasty with Intra-scleral Haptic Fixation IOL
Sadeer B. Hannush, United States
- S1-7** Donor Preparation in DSAEK and DMEK
Eun Chul Kim, Korea

Symposium 2 Anterior Lamellar Keratoplasty

Chair: Shiro Amano, Japan
Rajesh Fogla, India
Weiyun Shi, China

- S2-0** Special lecture: Decellularized Porcine Corneas VS Human Donor Corneas for Lamellar Keratoplasty
Weiyun Shi, China
- S2-1** Deep anterior lamellar keratoplasty for high risk cases
Shigeto Shimmura, Japan

S2-2 Perforated Cornea: Deep Anterior Lamellar Keratoplasty can help?
Pham Ngoc Dong, Vietnam

S2-3
Lixin Xie, China

S2-4
Tarek Katamish, Egypt

S2-5
Wei Chen, China

S2-6 Surgical management of Extreme Corneal Ectasia
Rajesh Fogla, India

S2-7 DALK: The Dos and Don'ts
Sadeer B. Hannush, United States

Symposium 3 Tissue Engineering and Basic Research

Chair: Wei Li, China
Teruo Nishida, Japan
Andrew J. Quantock, United Kingdom

S3-0 Special lecture:
James V. Jester, United States

S3-1 Trigeminal nerve and limbal stem cell
Shizuya Saika, Japan

S3-2 The role of proteoglycans and glycoproteins corneal function and development
Andrew J. Quantock, United Kingdom

S3-3 Human ESC-derived endothelial precursors rescues corneal endothelial dysfunction
Qingjun Zhou, China

S3-4 Biomechanical Modulation Therapy for the Treatment of Severe Corneal Burns
Che J. Connon, United Kingdom

S3-5
David Hui-Kang Ma, Taiwan

S3-6 A Novel Tissue Engineered Corneal Stromal Equivalent
Wei Li, China

Symposium 4 Inflammatory Eye Diseases/ Allergic Eye Diseases

Chair: Atsuki Fukushima, Japan
Vilavun Puangsricharern, Thailand
Alvin L. Young, Hong Kong

- S4-0** Special lecture: Treatment of neurotrophic keratitis
Bennie H. Jeng, United States
 - S4-1** Long term success for treatment of primary & recurrent pterygia
Alvin L. Young, Hong Kong
 - S4-2** Innovative thinking about managing difficult ocular GVHD
Wei-Li Chen, Taiwan
 - S4-3**
Namrata Sharma, India
 - S4-4** Ocular surface inflammation associated with air pollution
Jong Suk Song, Korea
 - S4-5** Office and Minor Surgery for Ocular Surface Diseases
Christopher J. Rapuano, United States
 - S4-6** Contact lens discomfort and ocular surface mucins
Masakazu Yamada, Japan
 - S4-7** Ocular Demodicosis--Myth or Reality?
Lingyi Liang, China
-

Symposium 5 Corneal Imaging/ Optical Assessment

Chair: Marcus Ang, Singapore
Choun-Ki Joo, Korea
Akira Murakami, Japan

- S5-0** Special lecture: Advances in corneal imaging and optical assessment
Tetsuro Oshika, Japan
- S5-1** Corneal higher-order aberration (HOA), a novel biomarker in corneal practice
Takefumi Yamaguchi, Japan
- S5-2** Anisotropic Optical and biomechanical Properties of the Cornea
Geunyoung Yoon, United States
- S5-3** Anisotropic optical and biomechanical properties of the cornea
Marcus Ang, Singapore

- S5-4** Imaging Fuchs Endothelial Corneal Dystrophy in Clinical Practice
Sanjay V. Patel, United States
 - S5-5** Straylight problems in cornea conditions often independent from acuity loss
Thomas J.T.P. van den Berg, Netherlands
 - S5-6** Meibum lipid composition according to tear interferometric patterns
Kyoung Yul Seo, Korea
 - S5-7** Mini-DMEK and iOCT guided sutures in acute keratoconus
Claus Cursiefen, Germany
-

Symposium 6 Eye Bank

Chair: Fung-Rong Hu, Taiwan
Ma Dominga B. Padilla, Philippines
Mitsuru Sawa, Japan

- S6-0** Special lecture: Use of Corneas from Hepatitis B Positive Donors for Corneal Transplantation
Fung-Rong Hu, Taiwan
- S6-1** History and Future of Nonprofit Eye Banking
Jeremy Shuman, United States
- S6-2**
Marian S. Macsai, United States
- S6-3** Sustaining Eye Bank Operations During the COVID-19 Pandemic
Ma Dominga B. Padilla, Philippines
- S6-4**
Monty M. Montoya, United States
- S6-5** Japan Eye Bank Association -Past and Present-
Mitsuru Sawa, Japan
- S6-6** Routine donor tomography in the eye bank for improved graft selection
Berthold Seitz, Germany
- S6-7** Adverse reactions and early graft follow-up by the eye bank
Graeme A. Pollock, Australia

Symposium 7 Dry Eye

Chair: Penny Asbell, United States
Zuguo Liu, China
Kazuo Tsubota, Japan

- S7-0** Special lecture:
Penny Asbell, United States
 - S7-1** Tear based biomarker for the diagnosis of dry eye
Zuguo Liu, China
 - S7-2**
Chi-Chin Sun, Taiwan
 - S7-3** Dry eye disease - myths and facts
Tor Paaske Utheim, Norway
 - S7-4** Tear Film Oriented Diagnosis (TFOD)
Norihiko Yokoi, Japan
 - S7-5** Characteristics and treatment of ocular neuropathic pain associated with dry eye
Kyung Chul Yoon, Korea
 - S7-6** Clinical factors contributing to dry eye symptoms in 2346 patients
Louis Tong, Singapore
 - S7-7** Challenges in Establishing a Dry Eye Center in the Phillippines
Victor L. Caparas, Philippines
-

Symposium 8 Fuchs Endothelial Corneal Dystrophy and Genetics

Chair: Claus Cursiefen, Germany
Noriko Koizumi, Japan
Sanjay V. Patel, United States

- S8-0** Special lecture:
Sophie X. Deng, United States
- S8-1** What affects visual function in FECD patients?
Yoshinori Oie, Japan
- S8-2** Potential Pathophysiology of Fuchs Endothelial Corneal Dystrophy
Naoki Okumura, Japan
- S8-3** The Genetics and Inheritance Patterns of Fuchs Endothelial Corneal Dystropl
Keith H. Baratz, United States

- S8-4** UV light causes Fuchs dystrophy: why females are more affected
Ula V. Jurkunas, United States
- S8-5** Outcome Measures for Clinical Trials of Fuchs Endothelial Corneal Dystrophy
Sanjay V. Patel, United States
- S8-6** Gene Therapy of MPS VII with CRISPR/Cas9 Genome Editing and ScAAV- β Glu Vectors
Winston W-Y Kao, United States
- S8-7** Gene Therapy for FECD in Asia ?
Jodhbir S. Mehta, Singapore

Symposium 9 Corneal Infection

Chair: Hiroshi Eguchi, Japan
Venkatesh N. Prajna, India
Elmer Y. Tu, United States

- S9-0** Special lecture: Impact of the Coronavirus Pandemic on Ophthalmology in San Francisco
David G. Hwang, United States
- S9-1** Future in the diagnosis of infectious keratitis
Lalitha Prajna, India
- S9-2** Infectious keratitis caused by rare microorganism
Hiroshi Eguchi, Japan
- S9-3** *Pythium* keratitis in Thailand: factors associated with prognosis
Vilavun Puangsricharern, Thailand
- S9-4** Infectious Crystalline Keratopathy Revisited
Ruben C. Lim Bon Siong, Philippines
- S9-5** Pathogenesis of cytomegalovirus corneal endotheliitis
Yoshitsugu Inoue, Japan
- S9-6** HSV: INNATE IMMUNITY IN THE ANTERIOR SEGEMENT
Sally S. Atherton, United States
- S9-7** Endothelial Keratoplasty Infections: Prevention and Management
Elmer Y. Tu, United States

Symposium 10 Stem Cell & Ocular Surface Reconstruction

Chair: Kohji Nishida, Japan
Scheffer Tseng, United States
Virender Singh Sangwan, India

S10-0 Special lecture:

Kohji Nishida, Japan

S10-1 Cultivated Cell Sheet Transplantation for Total Limbal Stem Cell Deficiency

Jun Shimazaki, Japan

S10-2

Paolo Rama, Italy

S10-3 Alphabet Soup of Ocular Surface Reconstruction

José A.P. Gomes, Brazil

S10-4 Mucous Membrane Grafting in Stevens Johnson Syndrome

Geetha Iyer, India

S10-5 HC-HA/PTX3 from Amniotic Membrane as a Surrogate Novel Limbal Niche Matrix

Scheffer Tseng, United States

S10-6 Management of Bilateral LSCD

Virender Singh Sangwan, India

S10-7 Cultivated Epithelial Transplantation, COMET & CLET

Tsutomu Inatomi, Japan

Symposium 11 Penetrating Keratoplasty/ Complex K/ Keratoprosthesis

Chair: Richard Abbott, United States
Charles NJ McGhee, New Zealand
Yu-Feng Yao, China

S11-0 Special lecture: Long Term International Outcomes of the Boston Type 1 Keratoprosthesis

Anthony J. Aldave, United States

S11-1 Keratoplasty with Femtosecond Laser: the Pros and Cons

Johan A. Hutaaruk, Indonesia

S11-2

Anshu Arundhati, Singapore

- S11-3** Survival of primary penetrating keratoplasty in children
Tommy CY Chan, Hong Kong
- S11-4** Type 2 Kpros in End Stage Ocular Surface Disorders
Geetha Iyer, India
- S11-5** Anterior Segment Reconstruction following trauma
Charles NJ Mcghee, New Zealand
- S11-6** Osteo-odonto-keratoprosthesis for treatment of end stage corneal blindness
Christopher Liu, United Kingdom
- S11-7** Intraoperative OCT Monitoring DALK Performed by PAVED Technique
Yu-Feng Yao, China

Symposium 12 Endothelial Keratoplasty/ Endothelium (II)

Chair: Sadeer B. Hannush, United States
Akira Kobayashi, Japan
Donald Tan, Singapore

- S12-0** Special lecture:
Donald Tan, Singapore
- S12-1**
Samar K. Basak, India
- S12-2**
Vincenzo Sarnicola, Italy
- S12-3** Surgical techniques and clinical outcomes of DMEK in patients with glaucoma
Sophie X. Deng, United States
- S12-4** DSAEK and DMEK update in Japan
Akira Kobayashi, Japan
- S12-5** Outcome of DMEK in eyes with Congenital Hereditary Endothelial Dystrophy
Rajesh Fogla, India
- S12-6**
Friedrich E. Kruse, Germany
- S12-7** Descemets Membrane Endothelial Keratoplasty (DMEK) using Young Donor Corneas
Reginald Robert G. Tan, Philippines

Symposium 13 Refractive Surgery

Chair: Kimiya Shimizu, Japan
Gerard Sutton, Australia
Paolo Vinciguerra, Italy

- S13-0** Special lecture: Refractive surgery for presbyopia
Hungwon Tchah, Korea
- S13-1**
Paolo Vinciguerra, Italy
- S13-2** Personality Traits in Patients Undergoing ReLEx SMILE Surgery
Kendrick Co Shih, Hong Kong
- S13-3** Epithelial Ingrowth: Treatment, Recurrence and Long - Term Results
Sonia H. Yoo, United States
- S13-4** Laser vision correction with simultaneous corneal crosslinking
Lim Li, Singapore
- S13-5** Toric Phakic Intraocular Lens Implantation for Mild Keratoconus.
Kazutaka Kamiya, Japan
- S13-6** Enhanced Screening for Ectasia Susceptibility Prior to Laser Vision
Renato Ambrósio Jr, Brazil
- S13-7** Visual, Refractive outcomes and Complications after Photorefractive Keratectomy for High Myopia
Jagadesh C. Reddy, India

Symposium 14 Contact Lens Symposium (ACS-ECLA/JCLS Joint Symposium)

Chair: Bennie H. Jeng, United States
Shizuka Koh, Japan
Michelle Rhee, United States

- S14-0** Special lecture: Management of Keratoconus with Hard Contact Lenses
Motozumi Itoi, Japan
- S14-1** Mechanism of Contact Lens Related Keratitis
Takashi Suzuki, Japan
- S14-2** Polymeric drug delivery devices - role in cornea and external diseases
Prashant Garg, India

- S14-3** Features of contact lens and non-contact lens related corneal infection
Fiona Stapleton, Australia
- S14-4**
Michelle Rhee, United States
- S14-5** Myopia control with orthokeratology
Takahiro Hiraoka, Japan
- S14-6** Contact Lenses for Ocular Surface Disease
Deborah Jacobs, United States
- S14-7** Limbal-Rigid Contact Lens for Stevens-Johnson Syndrome with Ocular Sequelae
Chie Sotozono, Japan

Symposium 15 Keratoconus and Collagen Cross Linking

Chair: Michael W. Belin, United States
José A.P. Gomes, Brazil
Naoyuki Maeda, Japan

- S15-0** Special lecture: Determining Keratoconus Progression Pre and Post CXL
Michael W. Belin, United States
- S15-1** Repeatability of Corvis® ST in different keratoconus stages
Berthold Seitz, Germany
- S15-2**
Gerard Sutton, Australia
- S15-3** CXL for Progressive Keratoconus: up to 13 years of follow up
Riccardo Vinciguerra, Italy
- S15-4** Comparison of pulsed and continuous accelerated corneal crosslinking
So-Hyang Chung, Korea
- S15-5** Revisiting the effect of corneal GP lenses in keratoconus
Shizuka Koh, Japan
- S15-6**
Vishal Jhanji, United States
- S15-7** Molecular Understanding of Keratoconus
Rohit Shetty, India

ACS-JCS Joint Session

Chair: TBD,
Shizuya Saiki, Japan

- S16-1** The use of long-term preserved corneas for perforated corneal ulcer
Huong Nguyen Viet Duong
- S16-2** Immune cells on the donor corneal endothelium after corneal transplantation
Naoki Okumura, Japan
- S16-3** Cytomegalovirus anterior uveitis in Hong kong
Ka Wai Kam, Hong Kong
- S16-4** VISTA is crucial for corneal alloyraft survival and immune privilege
Tomoyuki Kunishige, Japan
- S16-5** Effectiveness of Topical Voriconazole 1% Combineal with 0.05 Single and
Serial Intrastrom Injection Compared to Topical 5% Natamy cin in Fusari SP
Fungal Keratitis in Rabbit Experiments
Rina La Distia Nora, Indonesia
- S16-6** Endothelial Keratoplasty for Failed Penetrating Keratoplasty
Takashi Omoto, Japan
- S16-7**
Tushar Agarwal, India
- S16-8** Immunotherapeutic effects of ripasudil on corneal allograft survival
Takenori Inomata, Japan
- S16-9** The beneficial of iOCT in endothelial keratoplasty
Sharita Rosalyne Siregar, Indonesia
- S16-10** Blockade of costimulatory CD27/CD70 pothway promotes corneal allograft
survival
Akitomo Narimatsu, Japan

Best Selected Paper Session

Chair: Johan Hutaauruk, Indonesia
Satoru Yamagami, Japan

- S17-1** Outcomes of Descemet stripping automated endothelial keratoplasty with small incision and sutureless
Le Xuan Cung, Vietnam
- S17-2** Detection of tear film breakup immediately post eye opening by videokeratography
Norihiko Yokoi, Japan
- S17-3** Simple Limbal Epithelial Transplantation - Evolution, Technique & Results
Jayesh A Vazirani, India
- S17-4** Pharmacokinetic analysis of 5-FU and tegafur in tears of patients treated with S-1
Masakazu Yamada, Japan
- S17-5** Eight-Year Outcome of Corneal Transplantation Thailand Retrospective Analysis
Vilavun Puangsricharern, Thailand
- S17-6** Corneal xenotransplantation
Mee Kum Kim, Korea
- S17-7** Efficacy and safety of photodynamic antimicrobial chemotherapy for Acanthamoeba keratitis
Taiichiro Chikama, Japan
- S17-8** Kera to conus: Update and Management
Ngamjit Kasetsuwan, Thailand
- S17-9** Long Term Follow Up of Fibrin Glue - Assisted Gunderson Conjunctival flap
Jen-Yu Liu, Taiwan
- S17-10** Severe ocular complications associated with contact lens wear in Japan
Chika Shigeyasu, Japan
